

ELMWOOD PARK GIRLS' SOFTBALL LEAGUE DRAFT RULES

MINORS

Each team will be allowed to keep 2 players frozen from the previous year, plus 2 coaches and their children. All other players will be in the draft. Remember that you should have at least 1, preferably 2 players that can pitch/throw.

Pre-Teen

The draft will start with pitchers being identified which will be picked first (open draft). We want to have at least 2 pitchers (or throwers) per team. Each team will start with 2 coaches and their children frozen. No players will be frozen from the previous year/team. Everyone will be in an open draft.

Coaches should work with one another so that teams are equally balanced by grade and ability.

Seniors

This is an open draft. No players are frozen except for the head coach's child. If you desire other coaches you must use them as one of your picks. Pitchers will be picked first followed by catchers. You should rate players as per their ability. Please only head coaches at draft!

General:

Coaches shall make selections so that each team is balanced with the same number of players from each grade.

If Coach selects a player with sister on the next pick the opposing coach will be permitted to make two consecutive picks.
